

2024 Fall Residential Heating & Air Conditioning Rebate Program Contractor Participation Overview

Rebates will be offered on full heat pump, central air conditioning systems, or mini split heat pump system. For heat pump systems, the outdoor unit and indoor air handler must be installed. For central air conditioning systems, the outdoor unit, indoor fan-bearing unit or furnace, and coil must be installed. *Add-on coils alone are not eligible for a rebate.* For mini split heat pump systems, both the outdoor unit and indoor unit(s) must be installed. Rebates are based on AHRI Type noted on AHRI Certificate. EAP rebates are not valid in combination with other manufacturer rebates or discounts. PECO and local utility rebates can be combined with EAP rebates.

Heat Pump System:

Rebate Amount	SEER	HSPF	EER	SEER2	HSPF2	EER2
Tier 1 \$500	16.0+	8.5	12.5	15.2+	7.8	11.7
Tier 2 \$1,000	17.0+	8.5	12.5	16+	7.8	11.7
Tier 3 \$1,400	20.0+	8.5	12.5	18+	7.8	11.7

Additional \$250 on a dual fuel heat pump (hybrid): Heat Pump Efficiency must meet rebate level minimums (see above) - this is NOT a separate rebate, just an additional amount. For dual fuel heat pump, outdoor unit, indoor coil, and furnace must be installed.

Central Air Conditioning System:

Rebate Amount	SEER	EER	SEER2	EER2
Tier 1 \$500	16.0+	12.5	15.2+	12
Tier 2 \$900	17.0+	12.5	16+	12
Tier 3 \$1,200	20.0+	12.5	18+	12

Mini Split Heat Pump System: Single Zone (one head)

Rebate Amount	SEER	HSPF	EER	SEER2	HSPF2	EER2
\$250*	20+	12	12.5	17+	8.5	12

**Rebate amount increased for 2024 Fall Program*

OR

Multi Zone (per head)

Rebate Amount	SEER	HSPF	EER	SEER2	HSPF2	EER2
\$150*	18+	10	12.5	17+	8.5	12

**Rebate amount increased for 2024 Fall Program*

2024 Fall Program Timeline

Start of Program/Customer contracts may not be signed before:
 Customer contracts must be signed by:
 Systems must be installed by:
 All claim forms must be received by EAP by:

Monday August 5, 2024
Friday November 15, 2024
Friday November 29, 2024
Friday December 6, 2024
